Analyzed and Interpreted by Scott Nearing

February 29, 1948

Dear Mr. Wood:

It may seem incredible but not until today have we had time to write in reply to your unique communication. Our work, we are glad to say, is very heavy and increasing all the time, so that our volunteer forces have more than they can handle nights and Sundays. I know you will understand and will be glad to know that things are going so well.

We did find time to ship quite promptly the material you asked for and hope it reached you long ago. Thank you for your contribution of \$2.00 toward printing and postage.

In addition to the leaflets you asked for, we sent others not on the printed list you annotated. Please call upon us freely for more if you can use them, stating which → and how many of each, and we will be glad to send them. Personalized distribution is one thing we are eager to develop to the maximum.

Answering your question - we are able to allow 30% discount to book stores on any of Scott Nearing's six current books. (For 5 of them, see back cover of enclosed pamphlet and we enclose a notice of the sixth and latest.)

We take this opportunity to enclose a copy of "Capitalism to Communism." This is not a political tract, as its title might seem to indicate, but a sociologist's analysis and description of the two economic systems which are coming so sharply into conflict throughout the world. We think it highly desirable that this pamphlet be distributed as widely as possible and hope you will agree with us and help us in this effort.

Assuring you of our appreciation of your cooperation in disseminating Scott Nearing's valuable teachings, we remain,

Cordially yours,
WORLD EVENTS COMMITTEE

L. A. Blanson

Chairman

P.S. Please note that all communications and remittances relating to Scott Nearing's books, pamphlets and leaflets should be addressed to this office. Our Philadelphia office takes charge of the circulation of World Events.
