

ASDD - Los Gatos Lab  
January 20, 1965

F. B. Wood

DEC., 1965, SGSR-AAAS ANNUAL MEETING,  
SYSTEMS THEORY PROGRAM

I'm sorry for the long delay in the reply to your memo on this subject, but all of my time these past weeks has been occupied with current problems, and since the event in question does not occur until December, 1965, I doubted that you were in need of an immediate answer. However, the delay involved was much longer than I ever intended, and I do apologize.

In view of the intensive review of your avocational interest in cybercultural studies last fall, when it was clearly established that IBM will not subsidize your outside activities in this field, I think it is clear that in this instance your request cannot be approved.

J. J. Halsey
